For the services in Table 9, we request recommendations from the AMA RUC and other public commenters on the appropriate direct PE inputs for these services. We encourage the use of valid and reliable alternative data sources when developing recommended values, including electronic medical records and other independent data sources. We note that many of the CPT codes in Table 9 have been identified through other potentially misvalued code screens and have been recently reviewed. Given our observed concerns with the inputs for the recently reviewed IMRT and SBRT direct PE inputs discussed above, we believe it is necessary to re-review other recently reviewed services with stand alone PE procedure time.
